Welcome to the Otis DID!
https://did.otis.edu/

The Otis Digital Image Database is an imagebank of art historical and design images intended for educational and instructional use only. Faculty, students, and staff of Otis College may log in to the Otis DID to create “slideshows” for study and educational purposes. You can even use these digital images in the classroom instead of slides. Since this is a web application, you may access this site 24 hours a day, 7 days a week.

**Faculty:**
- Search across multiple collections
- Create slideshows
- Organize slideshows within folders
- Save searches
- Select favorites
- Add your own images to your personal collections
- Package slide shows for off-line viewing
- Add notes to an image which will be carried into multiple slideshows

**Students:**
- Search across multiple collections
- Create slideshows
- Access active slideshows created by their teachers
- Print out slideshows with thumbnails
- Create flash cards from active slideshows

Use your **Otis College username and password** to log on today.

Please stop by the Library for more information.

Quick Start for Otis DID

Log In – Use your Otis College username and password to log in

Search – Search within 1 collection by using keywords and pull-down menus. Or search across collections with keywords only.
   1. Click on the box(es) of the collections you wish to search
   2. A list of available fields will appear
   3. Type in the terms or chose from a pull down menu
   4. To add an image to a lecture, click on the “Selected” box under the thumbnail
   5. When you are ready to add the image(s) to a lecture, click on Add selected images to slideshow link on the top bar
   6. You can now add the image(s) to the current slideshow; create a new lecture from them; or add them to an existing slideshow

Browse – Browse records within 1 collection by field name.
   Use the pull down menus to choose the collection and field (e.g. Creator) you want to browse. Then use the A-Z, Other links to get around.
   To view search results as thumbnails, click on Show -> No information
   To view the most popular terms in a collection as a tag cloud, click on the Terms in this collection link.

Light Table – Arrange the images in a slideshow
   You can drag and drop images, duplicate images within a slideshow, and use a scratch space to keep images related to the lecture.
   o Slide Annotations apply to the image in that lecture only
   o Image Notes travel with the image into any lecture you create
   o To exit the Light Table, click on the Leave Light Table button on the left
   o Don’t forget to save your changes!

My Slideshows – Space for managing your lectures.
   To create a folder:
      1. Click on Manage Folders and then Create New Folder
      2. Replace the words “New Folder” with the your chosen name
      3. Click on Update
   To move slideshows between folders:
      1. Check the box(es) of the Slideshows you wish to move
      2. Use the pull down menu “Move to Folder” on the bottom bar
      3. Click on the Move button.
   To add images to an existing slideshow, simply click on the Add Images link.
   To create an off-line version of the slideshow, click on the Package link.

For more information, please use the Help files (top right menu) or visit the OtisDID FAQ.
